

# Syllabus

2nd Semester, 2014

Kookmin Univ.

|  |               |                        |           |                 |                 |
|--|---------------|------------------------|-----------|-----------------|-----------------|
| Course Title   | Human Anatomy | Credit                 | 3         | Professor       | Junggi Hong     |
| Eligibility  | PE Major      | Lecture time and place |           |                 |                 |
| e-mail   |               | Phone                  |           |                 |                 |
| <b>Course Description</b>  |               |                        |           |                 |                 |
| <p>This course is a survey of the following topics: anatomical directional terminology, cytology, histology, and the anatomy of the following systems: integumentary, skeletal, nervous, circulatory, respiratory, digestive, urinary, and reproductive.</p> |               |                        |           |                 |                 |
| Methods of Teaching  | Lecture       | Discussion             | Practicum | Multimedia      | Class materials |
|  | ○             |                        |           | ○               | ○               |
| Grading Scale  | Attendance    | Presentation           | Exams     | Professionalism | Assignment      |
| %  | 20            | 0                      | 60        | 10              | 10              |
| <b>Textbook</b>  |               |                        |           |                 |                 |
| <p>Lecture slides and supplemental materials</p>   |               |                        |           |                 |                 |
| <b>Assignment</b>  |               |                        |           |                 |                 |
| <p>1. Research paper</p>   |               |                        |           |                 |                 |

## Course Schedule

| week | Dates | Topics                       |  |
|------|-------|------------------------------|--|
| 1    | 8/26  | Introduction and Orientation |  |
| 2    | 9/2   | Tissue                       |  |
| 3    | 9/9   | Axial Skeleton               |  |
| 4    | 9/16  | Appendicular Skeleton        |  |
| 5    | 9/23  | Axial Muscles                |  |
| 6    | 9/30  | Appendicular Muscles         |  |
| 7    | 10/7  | Nervous System               |  |
| 8    | 10/14 | Midterm Exam                 |  |
| 9    | 10/21 | Cardiovascular System        |  |
| 10   | 10/28 | Respiratory System           |  |
| 11   | 11/4  | Digestive System             |  |
| 12   | 11/11 | Urinary System               |  |
| 13   | 11/18 | Reproductive System          |  |
| 14   | 11/25 | Review                       |  |
| 15   | 12/2  | Final Exam                   |  |
