강의목표	<p>The objective of this course is two-fold. The first is to provide you with the basic concepts and techniques for analyzing financial circumstances from the perspective of corporations. The other is to help you to understand and communicate with the capital markets and management people.</p>						
교과목 해설	<p>기업이 지향하여야 할 경영활동의 목표를 기업가치의 극대화에 두고 이를 달성하기 위한 투자결정기능, 자금조달기능, 배당결정기능을 합리적으로 수행하는 데 필요한 이론과 기법을 배운다.</p>						
강의진행 방법	<p>This is an online course. There will be quiz questions at the end of each lecture note and assigned problems of the textbook in the syllabus. After each lesson is finished, you should submit your answers to quiz questions and provide your own solutions to the assigned problems in a week. The problems are already assigned in the syllabus. There is a late penalty for the assignments. Financial calculators or excel spreadsheets are recommended when you are solving problems.</p>
