2. 특강 개요 (Summary of the Lecture)

개요 (summary)	<p>Course Description:</p> <p>This course teaches students to be self-regulated users of authentic English. Our online videos provide a comfortable and safe learning environment for practicing English. Together, we will explore topics that influence our lives on a daily basis through reading, writing, listening, and even speaking. Our conversation English class is designed to help students use English in class through conversation and at home through self-study and reflection. This is accomplished using brainstorming/planning strategies, partner/group interview activities, and individual presentation activities.</p> <p>Participants in this English conversation video series are expected to do independent English practice activities. Students who participate the most and do the most self-study activities will learn English fastest.</p> <p>Students who spend the most time on our speaking and communication writing activities will improve the most. Through dialogues and short talk activities, I hope we can learn and have fun at the same time.</p>
목표 (aim)	<p>Learning Objectives:</p> <ol style="list-style-type: none"> 1. Students speak, listen, write, and read conversation English Dialogues and Talks. 2. Students are able to write their own dialogues and talks as well as act them out.

	<p>3. Students present, through recorded role play activities of their dialogues and talks.</p> <p>The course, Conversation English, is literally an action-based English communication class. It is aiming specifically at increasing students' communicative competence in English, especially listening and speaking. This online video series can be good for students who are comfortable using computers, but it is okay if you are not familiar with communication technology. I promise you don't need to be a computer genius to participate in our activities. You do need to have a good attitude though.</p>
특강 내용 (contents)	<p>Welcome to Conversation English. This course contains supplementary material meant to be used alongside a typical conversation curriculum. There are 3 videos containing topics related to everyday English situations. Each video is designed exactly the same with a Warm Up, Key Phrases, Dialogue, Activity 1, Talk, and Activity 2.</p> <p>Warm Up The Warm Up consists of three parts. Part A is a photo-story. You will listen to a story related to the unit topic. Part B is a True / False listening comprehension activity and Part C is a vocabulary matching activity.</p> <p>Key Phrases Each unit has a table of commonly used key phrases related to the unit topic. Each phrase has an underlined segment. It is recommended that students attempt to replace the underlined segment with new ideas. For example, "Hi <u>John</u>, I'd like you to meet my friend." The student could attempt to reword this sentence to, "Hi Minsu, I'd like you to meet my teacher." This practice is intended to help make the Key Phrases section more interactive. There are 3 quiz sections - unscrambling sentence problems, matching problems, and short answer problems.</p> <p>Dialogue + Activity 1 Each unit has a dialogue between a man and a woman having a conversation related to the topic. The dialogue is followed by an Activity. Activities from this book are designed to be flexible. These are common activities you would find in many EFL conversation books. There is a writing section at the end of each unit. It is recommended that students develop their ideas through writing their own dialogues before attempting speaking activities.</p> <p>Talk + Activity 2 This section is the same as the Dialogue section but instead of a dialogue there is a talk. While the Dialogue + Activity section promotes conversation aspects of English, the Talk + Activity section promotes presentation aspects. Again, students are strongly encouraged to write their own talks in the space provided at the end of each unit.</p>

Culture Tip
 There is a culture tip at the end of each unit. This is intended to give the student a better understanding of American Culture. There is a space provide underneath the American culture tip for the student to write Korean culture tips. Similar to the Key Phrases table, this is intended to make the culture tip section more interactive.
