● 강의개요(Course Description)

This course provides students with a study of the Biblical concept of stewardship and an introduction to the management of our personal finances. After a thorough examination of Scriptural teachings on money and wealth, students are exposed to key areas of finance including the time value of money, budgeting, banking, debt and borrowing, investing, taxes and financial planning. Students will develop the skills necessary to intelligently manage their financial resources to the glory of God.

As Christians, our main purpose in life is to honor God in everything that we do. How we manage our personal finances is one of the most significant ways in which we can honor Him. The Bible deals extensively with money and wealth because our attitude towards our finances is often a close reflection of the attitude of our heart, testing the strength of our claimed loyalties to Christ. Scripture gives us clearly defined responsibilities with regard to wealth. Wealth can be managed and used properly, enhancing our effectiveness for Gods Kingdom or wealth can be mismanaged and used improperly, with destructive consequences.

● 평가

출석관리	<p>About Attendance</p> <ul style="list-style-type: none"> <li>- Class attendance will be required in strict accord with the academic policies of HGL. For your own benefit, since much of the material will be unfamiliar to you, I would strongly advise you to attend class - you will find the material much easier to follow if you have had the advantage of explanations in class.</li> <li>- Classes start on time and you are expected to be here on time. If you are more than five minutes late, you are absent.</li> </ul>							
학점산출 평가 도구 및 비중(%)	출석	중간시험	기말시험	퀴즈	팀프로젝트	개인과제	기타1(기타 1)	기타2(기타 2)

Honor Code 준수 및 평가방법 추가설명	<p>This is participation beyond the actual in-class exercises. Comments will be graded for quality as well as quantity. An excellent comment goes beyond explaining what, and provides insight into how and why and/or connects to other cases, learning, and student comments. If you are absent for a class session because of an unexcused absence, you are clearly not participating in that day's discussion, and your class participation grade will reflect this.</p>

● 과제 및 프로젝트(Assignments and Projects)

번호	내용
1	<p>Group Projects and Team Presentation</p> <ul style="list-style-type: none"> <li>- The class will be divided into two or three teams (given current class size). Each team will be given the same set of financial tasks based on material covered in class and required to make an oral presentation to the class, as well as a written presentation on their findings. Both quality of analysis and quality of presentation will determine grades on this exercise.</li> </ul>
2	<p>Exams</p> <ul style="list-style-type: none"> <li>- The scheduled exams will consist of financial problem solving exercises and analyses and/or essay questions. Exam dates are provided on the class schedule.</li> </ul>
3	<p>Reading Assignment and Case Study</p> <ul style="list-style-type: none"> <li>- If you hand in a paper after its due date, your grade for the assignment will be reduced by 10 points (on a scale of 100) if it is one class late, 25 points if it is two classes late and 50 points if it is three classes late. No credit will be given if it is handed in beyond that time frame. The one exception to this policy is that you may select one and only one paper for which you will be granted a grace period allowing you to hand in the assignment one week late without loss of credit. You must e-mail me that you are taking your grace period before the assignment is due. Papers are due at the start of class on their scheduled due date. If you e-mail me your assignment, I must receive it before the start of class; if you e-mail it to me after class on its due date, it is one class late.</li> </ul>
