	14						
기타 전달사항	<p>Our pre-class recordings will outline key words and phrases we will discuss in class. Students should come to class with an introductory understanding of these key words. In class, we will review key concepts in our review video and students will complete a series of tasks in class as reinforcement. Periodically students will undertake a peer-review process for their work under my instruction. Peer review and assessment solidifies comprehension and allows students to work together.</p>
