

과목명	약리학1				강좌번호	7842		
구분(학점)	3시간(3학점)				수강대상	4학년		
강의시간	요일 수1030-1200(의생대301)(b-러닝), 목요일 1600-1730(의생대 301)(b-러닝)				강의실	의생대 301(b-러닝, 의생대 301(b-러닝)		
인재상								
8대 핵심역량	인성역량	의사소통역량	종합적사고력	지식탐구역량	창의역량	정보활용역량	글로벌역량	리더십역량
			40%	60%				
전공역량								
담당교수								

1. 교과목 개요(Course Overview)

강의방법	강의식	토의(토론)	실험/실습	현장학습	이러닝	B러닝	플립러닝
	80%					20%	
평가방법	출석	중간고사	기말고사	과제	발표	팀활동	기타
		50%	50%				

강의개요 Text book and PowerPoint presentation, including flash (video) files, Quiz and Class test

선수학습 내용

강의목표 The goal of the Pharmacology course is to assure that our students obtain a thorough comprehension of the basic pharmacological principles necessary for developing effective and safe therapeutic regimens in the management of commonly occurring health problems. At the completion of this course, the student will be able to:
 Demonstrate an understanding of the terminology used to describe basic pharmacologic principles and drug classification. Discuss indications, rationale, efficacy and risks for commonly prescribed medications in primary care settings. Describe appropriate strategies for monitoring the expected effects and potential adverse effects of medications prescribed. Weigh factors such as cost, efficacy, age, quality of life to select the appropriate medication for common primary care conditions.
